#### Home and Farm Drill Set No. 26

This compact, handy set consists of 8 Carbon Steel Straight Shank Drills, sizes  $\frac{1}{16''}$ ,  $\frac{3}{26''}$ ,  $\frac{3}{16''}$ ,  $\frac{3}$ 

The set is packed in a wooden cylinder, as shown, with a handsome three-color varnished label, and equipped with a nickeled cap which revolves so that the size drill wanted can be easily and quickly found.

Price, per Set, Complete, \$1.90

#### Mechanic's Drill Set No. 57

This set of **Cle-Forge** High Speed Drills consists of 8 sizes  $-\frac{1}{16}$ ,  $\frac{1}{32}$ ,  $\frac{1}{16}$ ,  $\frac{1}{32}$ ,  $\frac{1}{36}$ ,  $\frac{1}{32}$ ,  $\frac{1}{36}$ ,  $\frac{1}{32}$ ,  $\frac{1}{36}$ ,  $\frac{1}{32}$ ,  $\frac{1}{32}$ , and  $\frac{1}{32}$ ,  $\frac{1}{32}$ .

It has been created to meet an insistent demand for a set of small high speed drills for use in the smaller sizes of electric drills by automobile repair shops, small machine shops, farms, vocational schools, and the thousands of individual owners of portable electric drills.

Labeled in red, green and black, and equipped with a nickeled revolving cap making it easy to locate any size drill instantly, this is unquestionably the most convenient small high speed drill set ever produced.

Price, per Set, Complete, \$3.55

## S. S. Drill Sets in Metal Cases

Fraction Sizes

#### Carbon Steel Set No. 51

This set includes all sizes of Jobbers' straight shank drills from ½-inch to ½-inch, by 64ths. Each drill fits into a hole plainly marked with its size, and on the side of the stand is shown the decimal equivalent of each size drill.

Price Complete.....\$17.85

At right is shown chromium plated stand included with both Sets Nos. 51 and 58. It is 8½ inches long, 1½ inches wide and 1½ inches high.

The metal cases shown above and below measure  $8\frac{1}{2}$  inches long,  $7\frac{3}{6}$  inches wide and  $1\frac{1}{2}$  inches high. Set No. 51 (above) is packed in a heavy black japanned case Set No. 58 (below) is identical in size, but is lacquered in red.

#### High Speed Steel Set No. 58

Identical in all respects with Set No. 51, excepting that all drills are the famous Cle-Forge High Speed. The card shown in the inside cover of the metal case gives useful information on drill pointing, as well as the proper care of high speed drills.

Price Complete....\$29.20

#### S. S. Drill Sets in Metal Cases

Wire Gauge Sizes

#### Carbon Steel Set No. 52

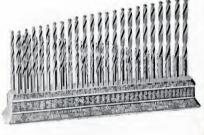

This set includes all the sizes of straight shank drills, steel wire gauge sizes, from No. 1 to No. 60, inclusive. The size drill fitting each hole is plainly marked, and on the side of the stand is shown the decimal equivalent of each size drill.

Price Complete.....\$16.20

Below is shown chromium plated stand included with both sets Nos. 52 and 59. It is the same size as stand shown on opposite page.

The metal cases shown above and below measure  $8\frac{1}{2}$  inches long,  $5\frac{1}{8}$  inches wide and  $1\frac{1}{2}$  inches high. Set No. 52 (above) is packed in a heavy black japanned case. Set No. 59 (below) is identical in size, but is lacquered in red.

#### High Speed Steel Set No. 59

Identical in every respect with Set No. 52, excepting that all drills are the famous Cle-Forge High Speed. The card shown in the inside cover of the metal case gives useful information on drill pointing, as well as the proper care of high speed drills.

Price Complete.....\$23.30

Separate Stands...\$5.00 Separate Cases....\$2.50

## Straight Shank Drills in Sets

Carbon Steel No. 50 With Stand, \$16.00

High Speed Steel No. 54 Without Stand, \$24.75

This set, now furnished in either carbon or high speed steel, takes in all the sizes of Jobbers' Straight shank drills, from ½ inch to ½ inch, inclusive, by 64ths. Each drill fits in a hole corresponding to its size. All 32nd sizes are on one side, and 64ths on the other side, thus affording quick and accurate selection.

## Straight Shank Wire Gauge Drill Set

This set comprises all the sizes of straight shank drills, steel wire gauge, from No. 1 to 60, inclusive. Each hole is numbered to correspond to size of drill. The even numbers are on one side, odd on the other, thus making selection very convenient.

These stands are of a peculiar composition metal, admirably adapted for the purpose and will not rust. The finish is in oxidized copper, making a very beautiful and lasting effect. They are especially useful in tool rooms and on mechanics' benches.

Stand Only, \$3.50

Carbon Steel No. 80 With Stand, \$14.35

High Speed Steel No. 84 Without Stand, \$18.85

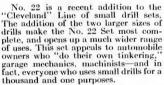

This set has been on the market for a number of years. It is more popular today then ever before. Set contains the following most used sizes:  $\frac{1}{6}$ ",  $\frac{5}{6}$ ",  $\frac{3}{2}$ ",  $\frac{7}{4}$ ",  $\frac{1}{6}$ ",  $\frac{9}{6}$ ",  $\frac{9}{6$ 

Drills are inserted, as shown, through especially punched holes in a heavy, tough, non-tearing fibre cloth, and are rolled into a sung, flat package which fits into a vest pocket size envelope of the same material.

Price, Complete, \$1.60

Set contains the following sizes:  $\frac{1}{6}$ ,  $\frac{6}{7}$ ,  $\frac{5}{6}$ ,  $\frac{9}{2}$ ,  $\frac{9}{2}$ ,  $\frac{9}{2}$ ,  $\frac{9}{2}$ ,  $\frac{9}{2}$ ,  $\frac{11}{6}$ ,  $\frac{9}{4}$ ,  $\frac{9}{2}$ ,  $\frac{11}{6}$ ,  $\frac{9}{4}$ ,  $\frac{11}{6}$ ,  $\frac{11}{6}$ ,  $\frac{9}{4}$ ,  $\frac{11}{6}$ ,  $\frac{11}{$ 

Price, Complete, \$2.10

#### Cle-Forge High Speed Drill Set No. 56

For the shop, or individual, desiring the finest to be had in small drills, we recommend Set No. 56.

Manufactured by the world-known "CLE-FORGE" process, these drills combine the essential qualities of accuracy and toughness.

There are 11 drills in the set, of exactly the same sizes as in Set No. 22. They are packed in a wooden block, which is inserted into a tough, there cloth container, with the size of each drill properly indicated.

Price, Complete, \$3.85

Size	Price	Dian	neter	Ler	ngth
No.	Each	Large End	At Point	Flute	Overal
1 2	\$1.00 1.50	1,2	1 8	$\frac{3\frac{1}{2}}{4\frac{1}{2}}$	$\frac{5}{6}\frac{1}{12}$

This is an ideal reamer for practically every type of reaming job where quick work is required. Farmers and others with home workshops find this reamer useful, because it eliminates the necessity and expense of several different sizes. It is also extensively used by electricians, telephone linemen, auto repairmen, plumbers, carpenters, machinists, blacksmiths, and others, for increasing the size of holes in all materials.

High Speed Drills with  $\frac{1}{2}$ -inch shanks will be furnished in sizes over  $\frac{3}{4}$ -inch diameter only at customer's risk, as we do not consider the shanks strong enough.

List No. 120 only is regularly furnished with flatted shank. It will be furnished with round shanks only when so ordered, List No. 936 has round shanks in all sizes.

For use in portable electric drills, we recommend that in all sizes up to and including ½-inch Straight Shank High Speed Drill No. 917 be used. (See page No. 12.)

#### List No. 148

Quick-Set Adjustable Reamers are manufactured for garage and repair shop use. These shops require a reamer with wide limits of adjustment and sturdy construction.

The bodies of Quick-Set Adjustable Reamers are made of tough machinery steel. The two ends of the body are threaded for nuts and the reamer is adjusted by loosening one nut and tightening the other. This moves the blades in the six slots which are milled with tapered bottoms in the body of the reamer.

The six blades are of hardened carbon tool steel and are ground to close limits.

The blades of a Quick-Set Reamer may be replaced when, after long hard service, new blades are needed. It is not necessary to return the reamer to us. You can replace the blades right in your own shop without grinding or filting. These blades are carried in stock for immediate shipment and ready for use.

4 .	Size No.	Dimensions Inches	Dimensions m/m	Length Overall Inches	Price Each
be furnished des, if desired tion.	4/A 3/A 2/A A B C D	3 8 to 13 32 13 52 to 7/16 7/16 to 15 52 15 52 to 17 52 17/22 to 19/32 19/52 to 21/52 21/52 to 23/52	9.5 to 10.25 10.25 to 11. 11. to 12. 12. to 13.5 13.5 to 15. 15. to 16.75 16.75 to 18.25	4 <sup>3</sup> / <sub>4</sub> 5 1/ <sub>4</sub> 5 3/ <sub>4</sub> 5 3/ <sub>4</sub> 5 3/ <sub>4</sub> 6 3/ <sub>4</sub>	\$3.50 4.00 4.00 4.50 4.50 4.75 4.75

These blades come ground to size and ready to insert. It pays to keep extra sets on hand. In ordering blades, he sure to specify letter size stamped in shank of Reamer.

#### No. 47 Set

Set No. 47 consists of two large sizes of Quick-Set Reamers—L and M—with an expansion range from  $1\frac{1}{2}$ " to  $2\frac{7}{32}$ ". Sets Nos. 44, 46 and 47, together, comprise the full line, with the exception of sizes N and O.

This Set comes in a strong polished case with slide cover and an individual compartment for each reamer.

Price, Complete, with Case, \$26.50

#### No. 44 Set

Set No. 44 is the ideal combination for garages and repair shops which require reamers in a great range of sizes.

This set comprises eleven Quick-Set Reamers sizes  $\Lambda$  to K, inclusive—a range which will handle reaming jobs from  $^{15}2^{o}$  to  $1^{1}2^{o}$ . Particular attention is called to the great strength of the smaller sizes—thereby practically eliminating reamer breakage.

Set No. 44 comes packed in a handsomely polished case hinged cover with a receptacle for extra blades.

Price, Complete, with Case, \$64.80

#### No. 45 Set

No. 45 is offered to meet an insistent demand for a small set to include the smaller sizes and provide a range best adapted to everyday garage and repair shop work. This Set comprises eight Quick-Set Reamers sizes A to H, inclusive.

These Reamers can be adjusted to ream any size hole from  $^{15}\!\!\!/_{32}''$  to  $11/_{16}''$ .

Set No. 45 comes in a strong polished case with slide cover and individual compartments for each reamer.

Price, Complete, with Case, \$39.80

#### No. 42 Set

Set No. 42 is designed to take care of the every day garage needs and although it does not contain the small or very large reamers, it will take care of the majority of the reaming operations in the garage at a moderate cost.

This set comprises six Quick-Set Reamers sizes C to H, inclusive. These reamers may be adjusted to ream any size hole from <sup>19</sup>/<sub>52</sub>" to 1½6".

Set No. 42 comes in a polished case with slide cover and individual compartments for each reamer.

Price, Complete, with Case, \$30.80

No. 46 Set

Set No. 46 is our newest set offered for the use of the mechanic who needs adjustable reamers for small holes. It is, also, an ideal set for the farm shop, as well as for the home tool chest. No. 46 consists of three Quick-Set Reamers, sizes 4/A, 3/A and 2/A. These reamers can be adjusted to ream any size hole from  $\frac{3}{8}$ " to  $\frac{15}{22}$ ". The set is packed in a small, strong wooden case, with slide cover and individual compartments for each reamer.

Price, Complete, with Case, \$11.50

## **Expansion Hand Reamers**

Spiral Flute—Set No. 36

This set has been made up after a careful check of the sizes mostly called for. In compartment at left are sizes .860,  $\frac{7}{8}$ ",  $\frac{13}{6}$ ",  $\frac{31}{22}$ " and 1". In the compartment at right are sizes  $\frac{5}{8}$ ", .668,  $\frac{11}{6}$ ", .740,  $\frac{3}{4}$ ",  $\frac{13}{6}$ " and .850. 12 reamers packed in a handsome polished compartment case.

List Price, Complete, including Compartment Case, \$120.00

#### Bit Stock Drill Set

List No. 13

This set consists of the following sizes Bit Stock Duills:  $\frac{1}{6}$ ",  $\frac{3}{32}$ ",  $\frac{1}{8}$ ",  $\frac{5}{32}$ ",  $\frac{3}{16}$ ",  $\frac{7}{32}$ ",  $\frac{1}{4}$ ",  $\frac{5}{16}$ ",  $\frac{3}{8}$ ".

They are contained in a handsome hard-

wood box, 2½ inches in diameter and 6½ inches long.

Price, Complete, \$4.25

#### **Hand Reamers**

Carbon Steel List No. 128A Eccentric Flutes

Where a number of duplicate reaming jobs are to be done there is no reamer better suited to the work within its range than the 128A. Being a solid reamer it is, of course, extremely accurate. This reamer is also furnished in sets and we would be glad to send you additional literature and prices on them.

## Common Sense Expansion Reamers List No. 129

A reamer that will help to reduce the number of reamers carried in your tool room. It can be easily and quickly adjusted and always gives satisfactory reaming results. The limits of expansion recommended for these reamers are as follows: Sizes  $\frac{1}{4}$  to  $\frac{15}{22}$ ", .005";  $\frac{1}{2}$  to  $\frac{31}{22}$ ", .008"; 1 to  $\frac{123}{22}$ ", .010";  $\frac{13}{4}$  to  $\frac{21}{2}$ ", .012". We have also furnished these with extra long shanks at special prices.

These Reamers are all of the same taper and the point of each Reamer will enter the hole reamed by the next size smaller,

#### Taper Pin Reamer Set Straight Flute—List No. 30

This set was especially designed for the automobile kit. It consists of the following sizes of Taper Pin Reamers: 0, 1, 2, 3, 4, 5.

They are put up in a round wooden box, five inches high by two inches in diameter, handsomery finished in dark maroon

Price, Complete, \$9.75

#### Taper Pin Reamer Set Spiral Flute—List No. 35

Contains sizes 0, 1, 2, 3, 4 and 5 in same size and style box as Set No. 30.

Price, Complete, \$11.25

## **Machine Taper Pin Reamers**

Carbon Steel No. 140

High Speed Steel No. 650

Spirex Machine Taper Pin Reamers are designed especially for the shop producing pin holes by machine reaming—for which work only reamers of this type can be profitably and economically used.

Due to the special Spirer construction, chips do not tend to pack in the flutes, Hence, breakage is practically eliminated. For this reason, Spirex should, and will, displace all other types of straight and spiral fluted taper pin reamers for machine use.

The very pronounced spiral angle makes it difficult to feed a Spirex Reamer by hand. Nevertheless, it is so free-cutting that, in many cases, it can be so used.

Can be supplied, also, with taper shanks, if desired.

(Taper 1/4-inch per foot)

"Spirex" Reamer with Special Taper

## Burring Reamers With Spiral Flutes

Nos. 232 to 234

Nos. 241 to 244

While designed, and especially ground, for use in a wide variety of materials, Cleveland Burring Reamers are primarily intended for the removal of burrs from cut pipe and conduit. They may be used, also, for smoothing down the rough edges of an extensive range of light materials. Frequently they can be used for countersinking.

Straight Shank List Nos. 232 to 234 are for use in electric drills; while List Nos. 241 to 244 are used in a Brace or Hand Drill.

#### Carbon Steel

#### Screw Extractors

"The Tools to Use on Broken Screws"

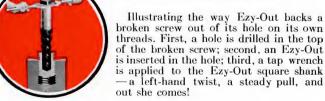

Ezy-Out removes broken cap or set screws with ease. Just drill a hole in the broken screw, insert Ezy-Out, slap on a tap wrench and out comes the broken screw on its own threads. A five-minute job. No re-tapping necessary. Every shop should have a set.

#### "EZY-OUT" Screw Extractors-List No.192

Size No.	Diam. at Small End	Diam. at Large End	Length of Flute	Length Overall	List Price Each	Size Drill to Use
1	.054	.117	1/2	2	\$0.55	5/64

9	1	1 9/32	2 1/4	4 5/8	2.65	1 1/16
10	1 1/4	1 9/16	2 1/2	5	4.00	1 5/16
11	1 1/2	1 7/8	3 2	5 5/8	5.35	1 9/16
12	1 7/8	2 5/16	3 ½	6 1/4	6.65	1 15/16

Note:—Always use the largest possible Ezy-Out. For ordinary conditions, we recommend using the size drill shown opposite the Ezy-Out size. Unusual condiditions may, however, require the use of a smaller or larger drill, depending upon the length

of the broken part or its depth in the hole.

No. 15A Set

No. 15A set includes Ezy-Out Screw Extractors sizes Nos. 1 to 6, inclusive, and was designed especially for garage work.

For general use and around the garage this set will be found invaluable and will handle practically any broken threaded piece in the automobile.

Although we recommend the No. 20 set which contains the proper drills to use with the extractors, to those who do not wish to purchase the drills the No. 15A set will be found most useful and a real time saver.

Price, Complete, with Box, \$4.00

No. 20 set includes Ezy-Out Screw Extractors sizes Nos. 1 to 6, inclusive, with the proper straight shank drill to use with each extractor.

No. 20 Set

This is a most complete and convenient set for garage or general use. This set enables you to find the right drill for use with Ezy-Ont—the size drill you want, right when you want it.

This set is capable of handling any size bolt, cap or set screw from small

electrical parts to one-inch studs. No, 20 set comes in a varnished case with slide cover and individual compartments for six Ezy-Outs and six drills.

Price, Complete, with Case, \$5.00

No. 15 Set

No. 15 Set includes Ezy-Out Screw Extractors sizes Nos. 1 to 5, inclusive, and was designed especially for tool room and lighter repair work.

Although this set does not give the extreme range of the No. 15A and No. 20 sets it will be found of great use for removing the smaller broken cap or set screws, or bolts.

Price, Complete, with Box, \$3.00

No. 17 Set

No. 17 set contains Ezy-Out Screw Extractors sizes Nos. 4, 5 and 6 and was designed for general repair shop use.

Although this set does not include small sizes necessary in tool room and garage work it will be found most valuable to take care of the larger cap and set screws found in repair shop work.

This set will handle any size bolt, cap or set screw from  ${}^5_{16}$ " up to 1" which, coupled with its low cost, should make a place for itself in any repair shop.

Price, Complete, with Box, \$2.35

The above counterbores can be furnished in Straight Shank, Short Set; also, in Taper or Straight Shank, Long Set, if desired.

Fraction and decimal sizes of pilots not listed can be furnished at prices of next larger size.

Prices for sizes from 11/8" to 3", upon application.

When ordering pilots be sure to specify size of counterbore. This is important.
